

RINSE OFF & HAIR CARE

ABOUT MUSIM MAS

Musim Mas Group is one of the world's biggest players in the palm oil industry, with its headquarters in Singapore. We have a global operational presence in 13 countries. The Group operates across every aspect of the sustainable palm oil supply chain, from upstream oil palm plantations to midstream and downstream operations, to marketing and sale of value-added products globally.

As one of the most prominent players in the palm oil industry, we aspire to be a responsible leader in the evolution of the industry, driving a new era of sustainability with innovation across the globe. To that aim, our dedicated, global team of professionals across the entire palm oil supply chain work closely with local and international stakeholders, ensuring that our products are economically viable, socially responsible, and environmentally appropriate.

Since 1972, Musim Mas has established deep and long-standing relationships with our customers and stakeholders worldwide. Our multi-cultural and multi-disciplinary

workforce, located in 13 countries, brings innovations to meet the growing needs of our customers. We are proud to be the preferred supply chain partner for palm oil and its derivatives. From our plantations, mills, refineries, kernel crushing plants, oleochemicals, and specialty fats plants, we manufacture palm oil and value-added derivatives before exporting these to customers via our extensive fleet of tankers and barges.

The steady growth of Musim Mas is underpinned by the quality of our management and supported by professionals dedicated to the highest standards of quality, safety, and efficiency.

Our global marketing activities are undertaken by Inter-Continental Oils and Fats (ICOF), a member of Musim Mas Group. ICOF has sales offices in North America, Europe and South East Asia to provide you with the best possible service.

SAFETY, QUALITY, SUSTAINABILITY

Musim Mas manufacturing facilities are certified to high international standards of quality and safety Certification. Musim Mas facilities are also fully compliant to ISO 9001:2015 and 14001:2015, which are the internationally recognized standard for quality management systems. We also meet the stringent standards including EefCI GMP for personal care and cosmetics and Fami-QS standards for animal feed additives.

Sustainable palm oil, which is used to produce our products is certified against internationally recognized standards of the Roundtable on Sustainable Palm Oil (RSPO) and verified by the Palm Oil Innovation Group (POIG). POIG focuses on environmental responsibilities, partnership with community, corporation and product integrity, finally creating and promoting innovation within palm oil industry.
