

PurePro® Soy Protein Concentrates for Plant-Based Meats

Textured & powdered proteins made with sustainable US-grown conventional soybeans from farmers we know.

DELIVER NUTRITIOUSNESS

Delight consumers with meat-like taste, texture, and appearance:

- Neutral taste allows flavors to shine through
- Provides excellent meaty bite, firmness, and juiciness
- Multiple application opportunities

GROW PROFITABLY

Drive brand value with enhanced growth and optimized costing

- Have access to scalable supply
- Minimize formulation costs
- Maximize production yield

SOURCE CONFIDENTLY

Source a trusted, continuous supply of high-quality soy protein concentrates

- Centralized processing & production
- Multiple warehouse sites
- 30+ years of soy protein experience

BELLEVUE, OHIO FACILITY

Our scalable supply of conventional soy protein concentrates are produced in our premier facility located in Bellevue, Ohio, enabling you to drive business value while satisfying protein demand for plant-based meats.

BUNGE®

Plant-Based@Bunge.com

PurePro soy protein concentrates are great for creating a wide range of ground and whole muscle plant-based meat applications while delivering exceptional texture and taste and optimizing production costs.

Our textured*† and powdered* proteins offer 69% minimum protein on a dry basis and provide key sensory and efficiency benefits in plant-based burgers, meatballs, nuggets, ground meats, pizza toppings and more.

*Non-GMO options available †Caramel colored options available

GROUNDS

- Deliver firmness & meaty bite using crumbles, granules, and flakes
- Create layered textures by combining ingredients
- Customize meat texture by mixing & matching ingredient sizes & densities
- Ensure juiciness

WHOLE MUSCLE

- Achieve firm & tender meats using Soy 70N-50 in HME§, or by combining Soy 70N-50 with functional soy protein in HME§
- Supports shredding & ensures juiciness

§HME = high-moisture extrusion
