Rakoll® TPX 1 Waterproof Adhesives: Driving Innovation in the Woodworking Industry

H.B. Fuller is introducing Rakoll® TPX 1, a high-performance, water-based adhesive, that meets the American National Standards Institute (ANSI) and the Decorative Hardwood Association (formerly HPVA) Type 1 water resistance specifications. Designed for bonding interior or exterior non-structural wood joints, Rakoll® TPX 1 has a long open assembly time, low VOC, water clean up, in an easy to use single component formulation.

H.B. Fuller's Rakoll® woodworking adhesives, long regarded as the high standard in Europe have recently been re-launched in North America.
