SAFETY DATA SHEET

			E: 11/16/2015, Version 1		
Section 1 - Identification					
GHS product identifier	:	HP 33151	Light Organic Yellow		
Chemical name	:	Mixture	• •		
Synonyms	:	Color Disp	ersion, Color Concentrate		
Product type	:				
Material use	:	Paint and	Coatings Additive		
Supplier's details	:	Eagle Specialty Products			
ADDRESS		2216 North	n Broadway		
			MO 63102		
		Information	n (314) 241-7771		
Emergency telephone number :		CHEMTREC 800-424-9300 or 703-527-3887			
Section 2 – Hazardous Ident	tification				
GHS Classification		0011411			
	azardous by the 2017 ammable liquids	2 OSHA Hazai	rd Communication Standard (29 CFR 1910.1200) Category 3		
	in corrosion/irritation		Category 2		
	rious eye damage/ey		Category 2 Category 2A		
	rcinogenicity		Category 1B		
	productive toxicity		Category 2		
Re Re			Category 2 Category 3 respiratory tract irritation		
Specific target organ toxicity					
Specific target organ toxicity, s Specific target organ toxicity, s			Category 3 narcotic effects		

Label Elements

Signal Word Danger

Hazard Statements	
H226	Flammable liquid and vapor.
H304	May be fatal if swallowed and enters airways.
H317	May cause an allergic skin reaction.
H335	May cause respiratory irritation.
H336	May cause drowsiness or dizziness.
H350	May cause cancer.
H361	Suspected of damaging fertility or the unborn child.

Precautionary Statements: Prevention P202 Do not handle until all safety precautions have been read and understood.

P202	Do not handle until all salety precautions have been read and understood.
P210	Keep away from heat/sparks/open flames/hot surfaces. — No smoking.
P233	Keep container tightly closed.
P240	Ground/bond container and receiving equipment.
P241	Use explosion-proof electrical/ventilating/lighting//equipment.
P242	Use only non-sparking tools.
P243	Take precautionary measures against static discharge.
P261	Avoid breathing dust/fume/gas/mist/vapors/spray.
P264	Wash skin thoroughly after handling.
P270	Do not eat, drink or smoke when using this product.
P280	Wear protective gloves/protective clothing/eye protection/face protection.
P281	Use personal protective equipment as required.

Precautionary Statem	nents: Response
P301+P310	IF SWALLOWED: Immediately call a POISON CENTER or doctor/physician
P303+P361+P353	IF ON SKIN (or hair): Take off immediately all contaminated clothing. Rinse skin with water/shower.
P304+P340+P312	IF INHALED: Remove person to fresh air and keep comfortable for breathing. Call a POISON CONTROL CENTER/doctor if you feel unwell.

	easy to do. Continue rinsi	ing.	Il minutes. Remove contact	t lenses, if present and
	IF exposed or concerned: Do NOT induce vomiting.	Get medical advice/atter	ntion.	
	If skin irritation occurs: Ge	t medical advice/attentio	n	
	If eye irritation persists: G			
	Take off contaminated clo			
	In case of fire: use recom			
Precautionary Statements

Section 4 - First Aid Measures

Eye Contact Rinse immediately with plenty of water, also under the eyelids, for at least 15 minutes. Obtain medical attention.

Skin Contact Wash off immediately with plenty of water for at least 15 minutes. Obtain medical attention. Inhalation Move to fresh air. If breathing is difficult, give oxygen. Obtain medical attention. Ingestion Do not induce vomiting. Obtain medical attention.

Most important symptoms/effects Eye irritation signs/symptoms may include a burning sensation, redness, swelling, and/or blurred vision. Skin irritation signs/symptoms may include a burning sensation, redness, swelling, and/or blisters. If inhaled signs/symptoms may include coughing, choking, wheezing, difficulty in breathing, chest congestion, shortness of breath, and/or fever. Onset of respiratory symptoms may be delayed for several hours following exposure. Inhalation of high vapor concentrations may cause central nervous system depression resulting in dizziness, light-headedness, headache, nausea, and loss of coordination. Continued inhalation may result in unconsciousness and death.

Notes to Physician Treat symptomatically

Section 5 - Fire Fighting Measures	
Suitable Extinguishing Media	CO 2, dry chemical, dry sand, foam, water spray.
Unsuitable Extinguishing Media	Water in a jet
Flash Point	38 °C / 101 °F
Method	No information available
Autoignition Temperature	333 °C / 631 °F
Explosion Limits	
Upper	7.6
Lower	0.6
Sensitivity to Mechanical Impact	No information available
Sensitivity to Static Discharge	No information available

Specific Hazards Arising from the Chemical

Thermal decomposition can lead to release of irritating gases and vapors. Keep product and empty container away from heat and sources of ignition.

Hazardous Combustion Products

Carbon monoxide (CO) Carbon dioxide (CO2), Nitrous fumes

Protective Equipment and Precautions for Firefighters

As in any fire, wear self-contained breathing apparatus pressure-demand, MSHA/NIOSH (approved or equivalent) and full protective gear.

Section 6 -	Accidental Relea	ise Measures					
Personal Pr	ecautions		personal protective equip act with skin, eyes and clo	ment. Ensure adequate ventilation. Avoid othing.			
Environme	ntal Precautions	Avoid	Avoid release to the environment. See Section 12 for additional ecologic information.				
Methods fo	r Containment ar		up with inert absorbent r sposal.	naterial. Keep in suitable, closed containers			

Section 7 - Handling and Storage

Handling

Eliminate sources of ignition. Avoid spark promoters. Ground/bond container and equipment.

These alone may be insufficient to remove static electricity. Wear personal protective equipment. Do not breathe gas/fumes/vapor/spray. Avoid contact with eyes, skin, and clothing. Do not taste or swallow. Avoid prolonged exposure. Use only with adequate ventilation. Wash thoroughly after handling. The product is extremely flammable, and explosive vapor/air mixtures may be formed even at normal

room temperatures. DO NOT handle, store or open near an open flame. sources of heat or sources of ignition. Protect material from direct sunlight. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. When using, do not eat, drink or smoke. Avoid release to the environment.

Storage

Keep containers tightly closed in a dry, cool and well-ventilated place.

_____ Section 8 - Exposure Controls, Personal Protection

Chemical Name	ACGIH TLV-TWA	ACGIH-TLV STEL	OSHA PEL-TWA	OSHA PEL-CEILING
Naphtha Light Aromatic	N.E	N.E.	500 ppm.	N.E.
Cumene	N.E.	N.E.	50 ppm	N.E.
PM Acetate	N.E.	N.E.	N.Ė.	N.E.
Butyl Acetate	150 ppm	N.E.	150 ppm	N.E.

egend: MEL = Maximum Exposure Limit OES = Occupational Exposure Standard SUP = Supplier's Recommendation Sk = Skin Sensitizer N.E. = Not Established

Personal Protective Equipment

Engineering Controls: Local exhaust ventilation may be necessary to control any air contaminants to within their TLVs during the use of this product. Use explosion-proof ventilation equipment. Facilities storing or utilizing this material should be equipped with an eyewash facility and a safety shower.

Respiratory Protection: A NIOSH/MSHA approved air purifying respirator with an organic vapor cartridge or canister may be permissible under certain circumstances where airborne concentrations are expected to exceed exposure limits. Protection provided by air purifying respirators is limited. Use a positive pressure air supplied respirator if there is any potential for an uncontrolled release, exposure levels are not known, or any other circumstances where air purifying respirators may not provide adequate protection. A respiratory protection program that meets OSHA 1910.134 and ANSI Z88.2 requirements must be followed whenever workplace conditions warrant a respirator's use.

Skin Protection: Use chemical splash goggles and face shield (ANSI Z87.1 or approved equivalent). The glove(s) listed below may provide protection against permeation. Gloves of other chemically resistant materials may not provide adequate protection. Rubber, nitrile or neoprene to prevent skin contact. Wear chemical resistant gloves such as polyvinyl alcohol. If splashing is likely, wear impervious clothing and boots to prevent repeated or prolonged skin contact. Contact your supplier of PPE for additional instruction on proper use. Additionally, Viton and Safety 4H (Canada) to prevent skin contact.

Other Protective Equipment: Wear chemical resistant shoes. Rubber or plastic apron should be worn.

Hygienic Practices: Wash hands before eating. Remove contaminated clothing and wash before reuse. Use only in a well ventilated area. Follow all SDS/label precautions even after container is emptied because they may retain product residues. Avoid prolonged or repeated contact with skin. Avoid breathing vapors from heated material. Avoid

Section 16 - Other Information

HMIS® Hazard Ratings: Health - 2, Flammability - 2, Physical Hazard - 0

HMIS® rating involves data interpretations that may vary from company to company. They are intended only for rapid, general identification of the magnitude of the specific hazard. To deal adequately with the safe handling of this material, all the information contained in this SDS must be considered.

CONEG Heavy Metal: We confirm that we use packaging and/or packaging components in which the sum of the incidental concentration levels of lead, mercury, cadmium and hexavalent chromium do not exceed 100 parts per million by weight.
