

SEALANT/PRIMER

Millennium Universal Primer

DESCRIPTION

Millennium Universal Primer is an all-purpose water-based primer designed for use with the entire Millennium family of products. The primer is easy to apply and requires no mixing. A red tint offers easy recognition of areas where the primer has been applied.

BASIC USE

Millennium Universal Primer is specially formulated for use as a film former that will enhance adhesion to most surfaces. It is approved for use over the following roof types:

- Built-up systems
- Modified Bitumen
- Metal

Millennium Universal Primer is intended to bind fine particulate matter such as dust on a gravel surfaced built-up roof or asphalt particles on a crazed or “alligatored” roof surface. **NOTE: Application of Millennium Universal Primer is not a substitute for proper removal of loose gravel or debris from the substrate by vacuuming and/or power washing.**

For additional information, contact our Technical Department.

SURFACE PREPARATION

All work surfaces should be clean, dry, and free of dirt, dust, debris, oils, loose and/or embedded gravel, un-adhered coatings, deteriorated membrane and other contaminants that may result in a surface that is not sound or is uneven.

STORAGE

Millennium Universal Primer can be stored at room temperature where it will have a shelf life of one year. Keep from freezing.

SAFETY

Prior to working with this or any adhesive product consult product label and Safety Data Sheet (SDS) for necessary health and safety precautions.

LIMITATIONS

- Millennium Universal Primer should not be applied to a wet surface, all surfaces must be dry prior to application.
- Millennium Universal Primer should not be applied to PVC roof membranes.
- Millennium Universal Primer should not be applied when material or surface temperatures are below 40°F (4°C).
- Millennium Universal Primer should not be applied over silicone base coatings.
- Roof decks exhibiting severe corrosion should be tested in accordance with ANSI/SPRI IA-1 2010 to ensure suitability for bonded recover applications.

FEATURES

BENEFITS

One part	Easy to apply, no mixing
Water based	Soap and water clean up
Solvent free	VOC free, no flame hazards
Quick application	Applies in one coat

PACKAGING AND COVERAGE

Millennium Universal Primer is available in the following package:

<u>Pail Size</u>	<u>Part #</u>	<u>Pails/Pallet</u>
3.5 Gallon (13.2L)	UP-3.5P-01	36

Covers 150 - 250 sq ft (14m² - 23m²) per gallon. Coverage rates may be slightly higher over irregular surfaces.

APPLICATION

1. All work surfaces should be clean, dry, free of dirt, dust, debris, oils, loose gravel, un-adhered coatings, deteriorated membrane and other contaminants that may result in a surface that is not sound.
2. Brush, spray, or roll Millennium Universal Primer over the entire prepared surface. Applies in one coat. Allow primer to completely dry. Remove all heavy or puddled areas to ensure thorough drying. Drying time will vary based on temperature and relative humidity.
3. After primer has completely dried, apply Millennium Adhesives in accordance with current product application instructions.
